## COVID-19 Research

### **Encevo supports Luxembourg Centre for Systems Biomedicine**

In the context of the collective effort to fight the COVID-19 pandemic, Encevo supports the Luxembourg Centre for Systems Biomedicine with a donation of 7.000 EUR.

After having distributed more than 5.000 reusable face masks to all the group's employees, an internal awareness campaign (Show respect. Wear a mask!) was initiated, asking the employees to take a selfie with their mask and uploading it to a dedicated website, the amount to be donated increasing with the number of selfies.

Encevo Group thanks all its employees for respecting the sanitary measures and for participating in the collective effort against the pandemic.

Esch-sur-Alzette, 22 July 2020
